

The paper "Black Box Polynomial Identity Testing of Depth-3 Arithmetic Circuits with Bounded Top Fan-in" by Zohar S. Karnin and Amir Shpilka, ECCC TR07-42, revision 01, is superseded by the paper "Black Box Polynomial Identity Testing of Generalized Depth-3 Arithmetic Circuits with Bounded Top Fan-in" by Zohar S. Karnin and Amir Shpilka, ECCC TR07-42, revision 02.

Electronic Colloquium on Computational Complexity, Comment 1 on Report No. 42 (2007)
